## ABOUT THE RUBBER BAND

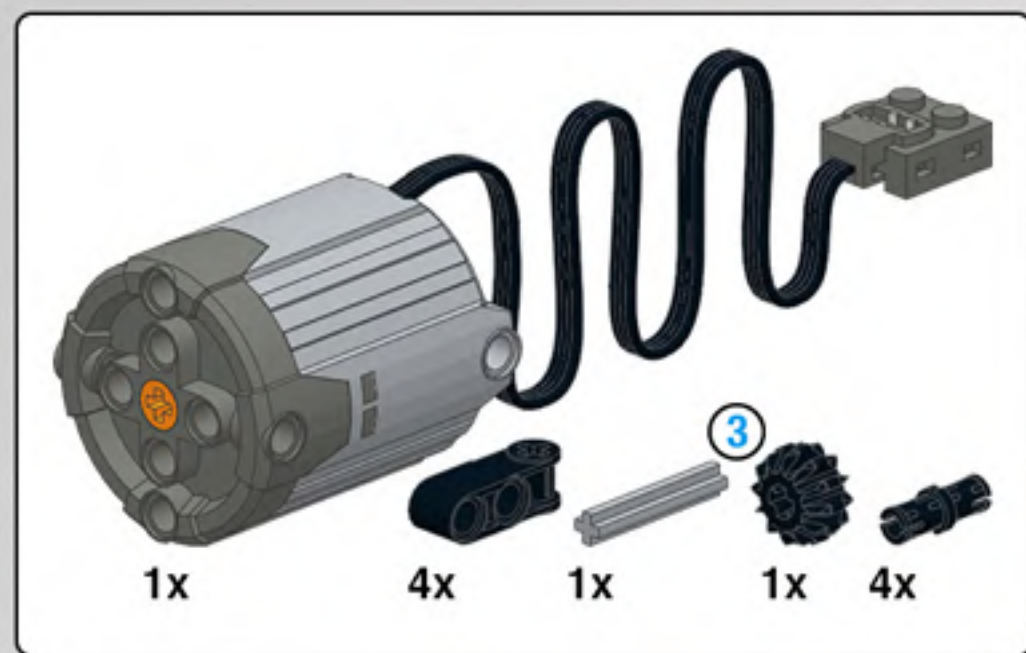

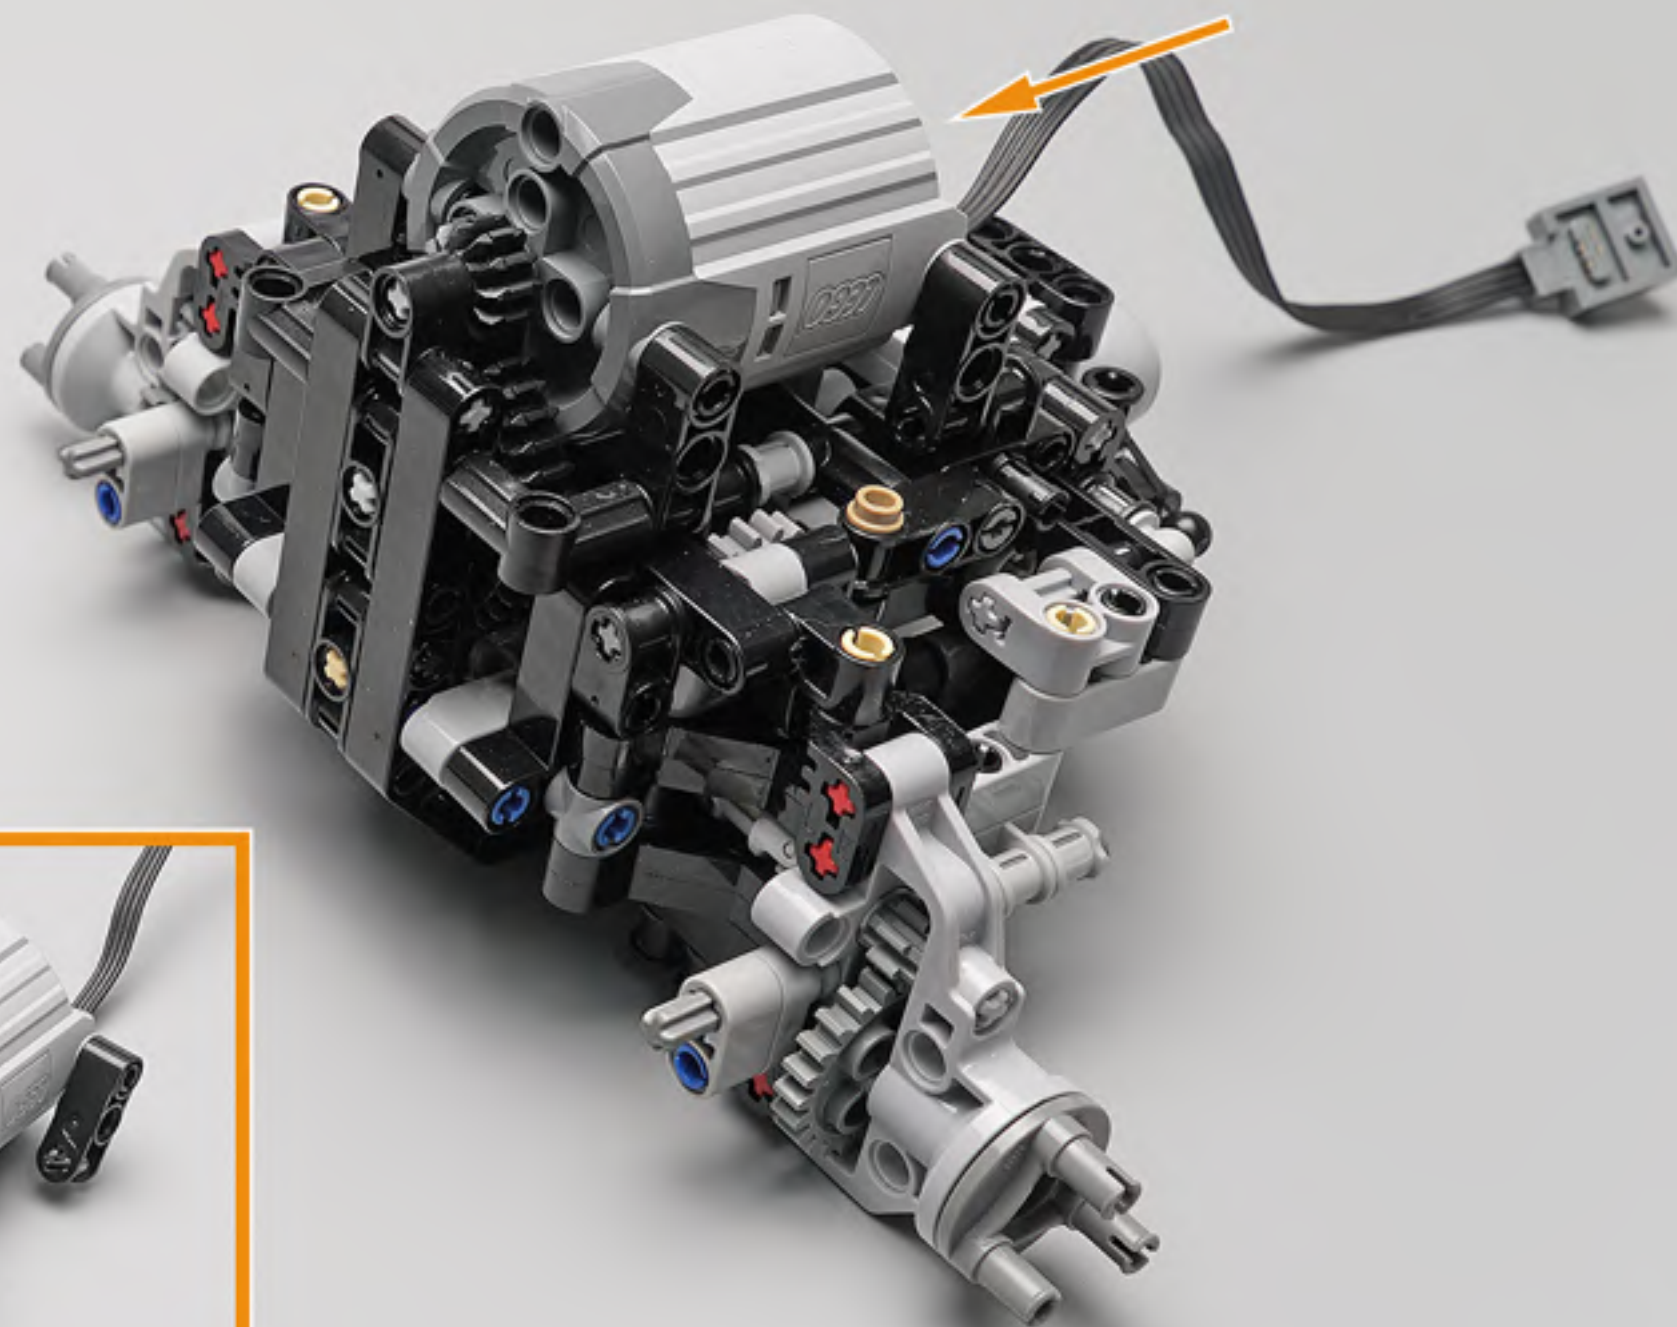

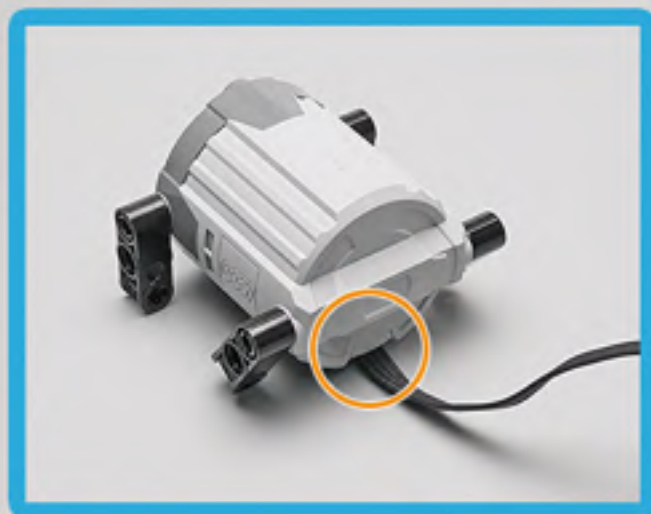

## 关于橡皮筋

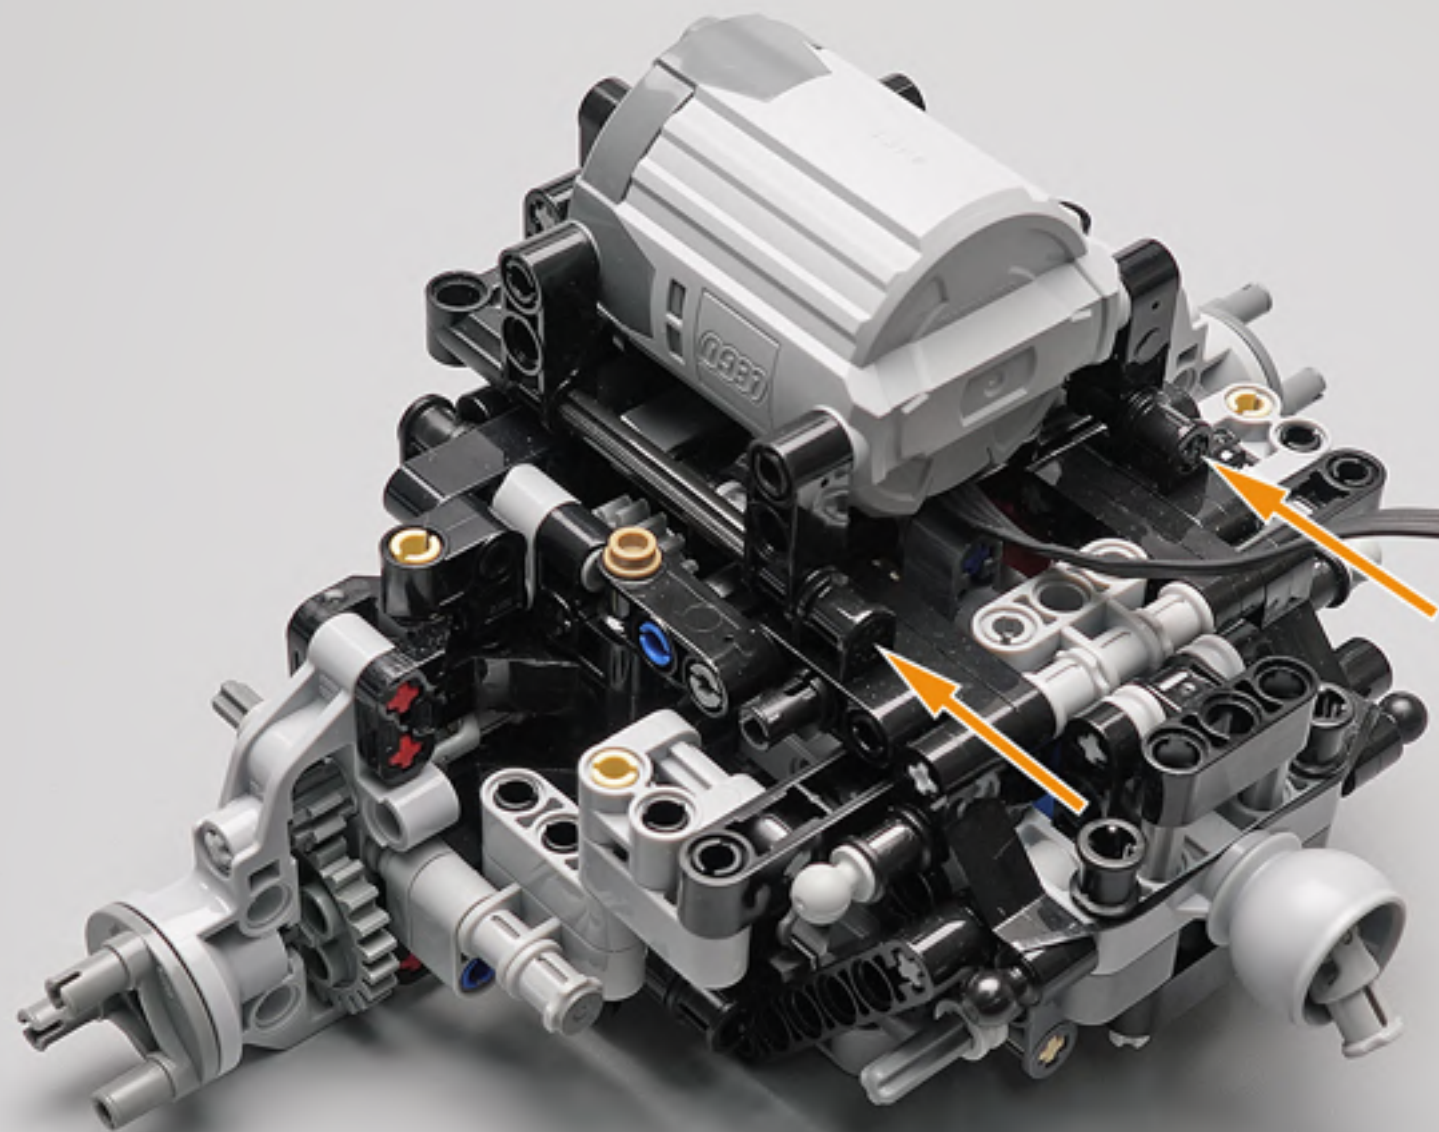

Rubber band is crucial to the auto-lock mechanism. Use your finger to push the slider downwards, it should have just enough tension to pull the slider back up when you release your finger(Fig. 1 and 2). Not too much. I use this non-LEGO rubber band made by *MUJI*. What's good about it is that it's thin and durable(Fig. 3). You can choose whatever rubber band that suits you well, but where to fix it may vary depending on the specific type you use(Fig. 4). Remember that too much tension will add extra burden on the Servo Motor, so choose wisely.

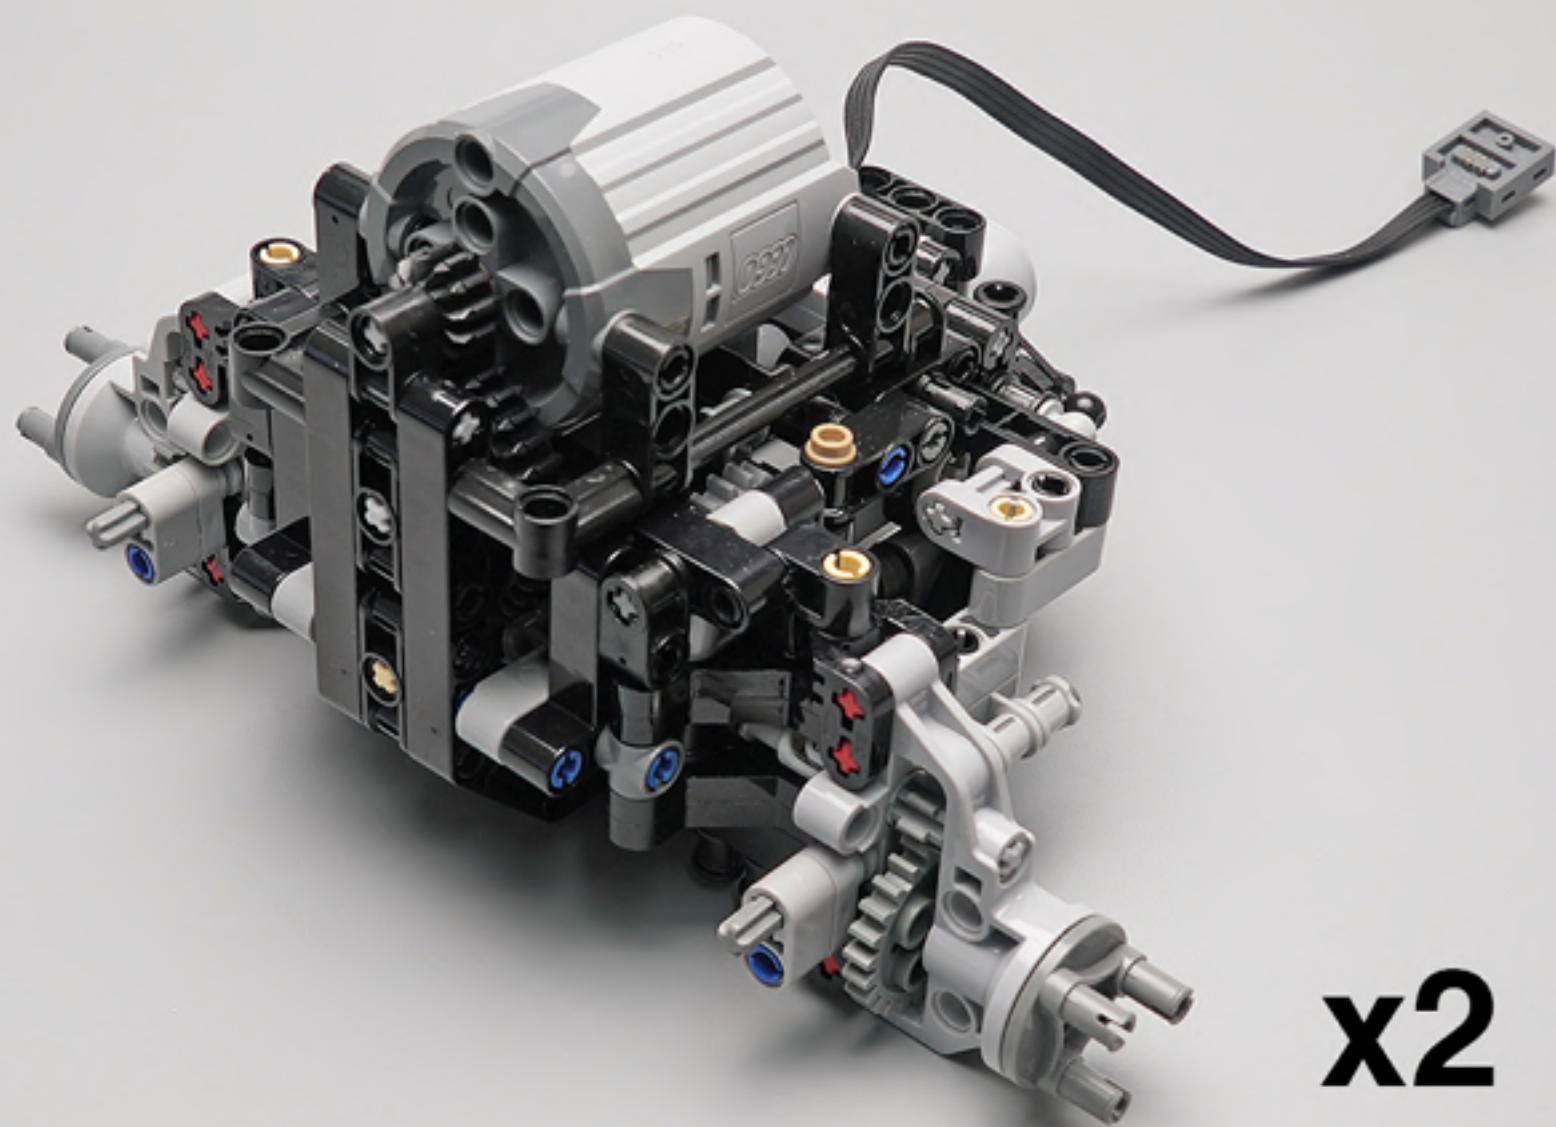

对于自锁装置，橡皮筋至关重要。用手指向下推动滑块，移开手指时，橡皮筋的张力应刚好能将滑块拉回至原处（图 1、2）。力不应过大。我所使用的是「無印良品」的橡皮筋，其优点是薄且耐用（图 3）。你可以选择任何适合你的橡皮筋，但具体种类不同，固定位置也可能不同（图 4）。切记，张力过大会给伺服马达增加额外负担，所以请谨慎选择。
