Cut 2L of the two 32L hose and click the two 2L hoses in the two 1 x 2 plates with clips at the green arrows.

Make sure only 2L is cut off or else the remaining 30L hose for the front will be too short.

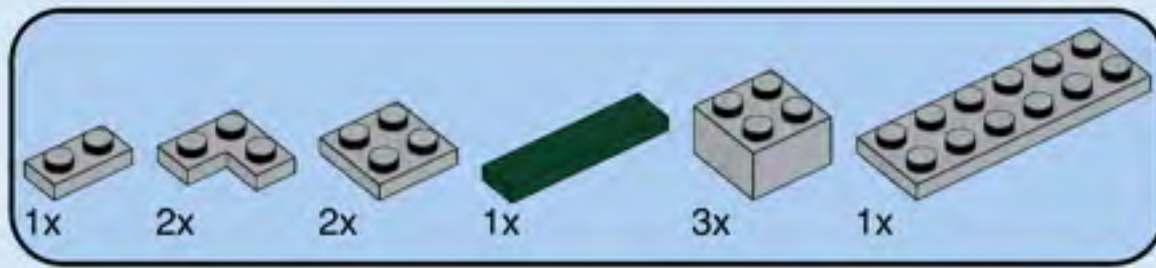

114

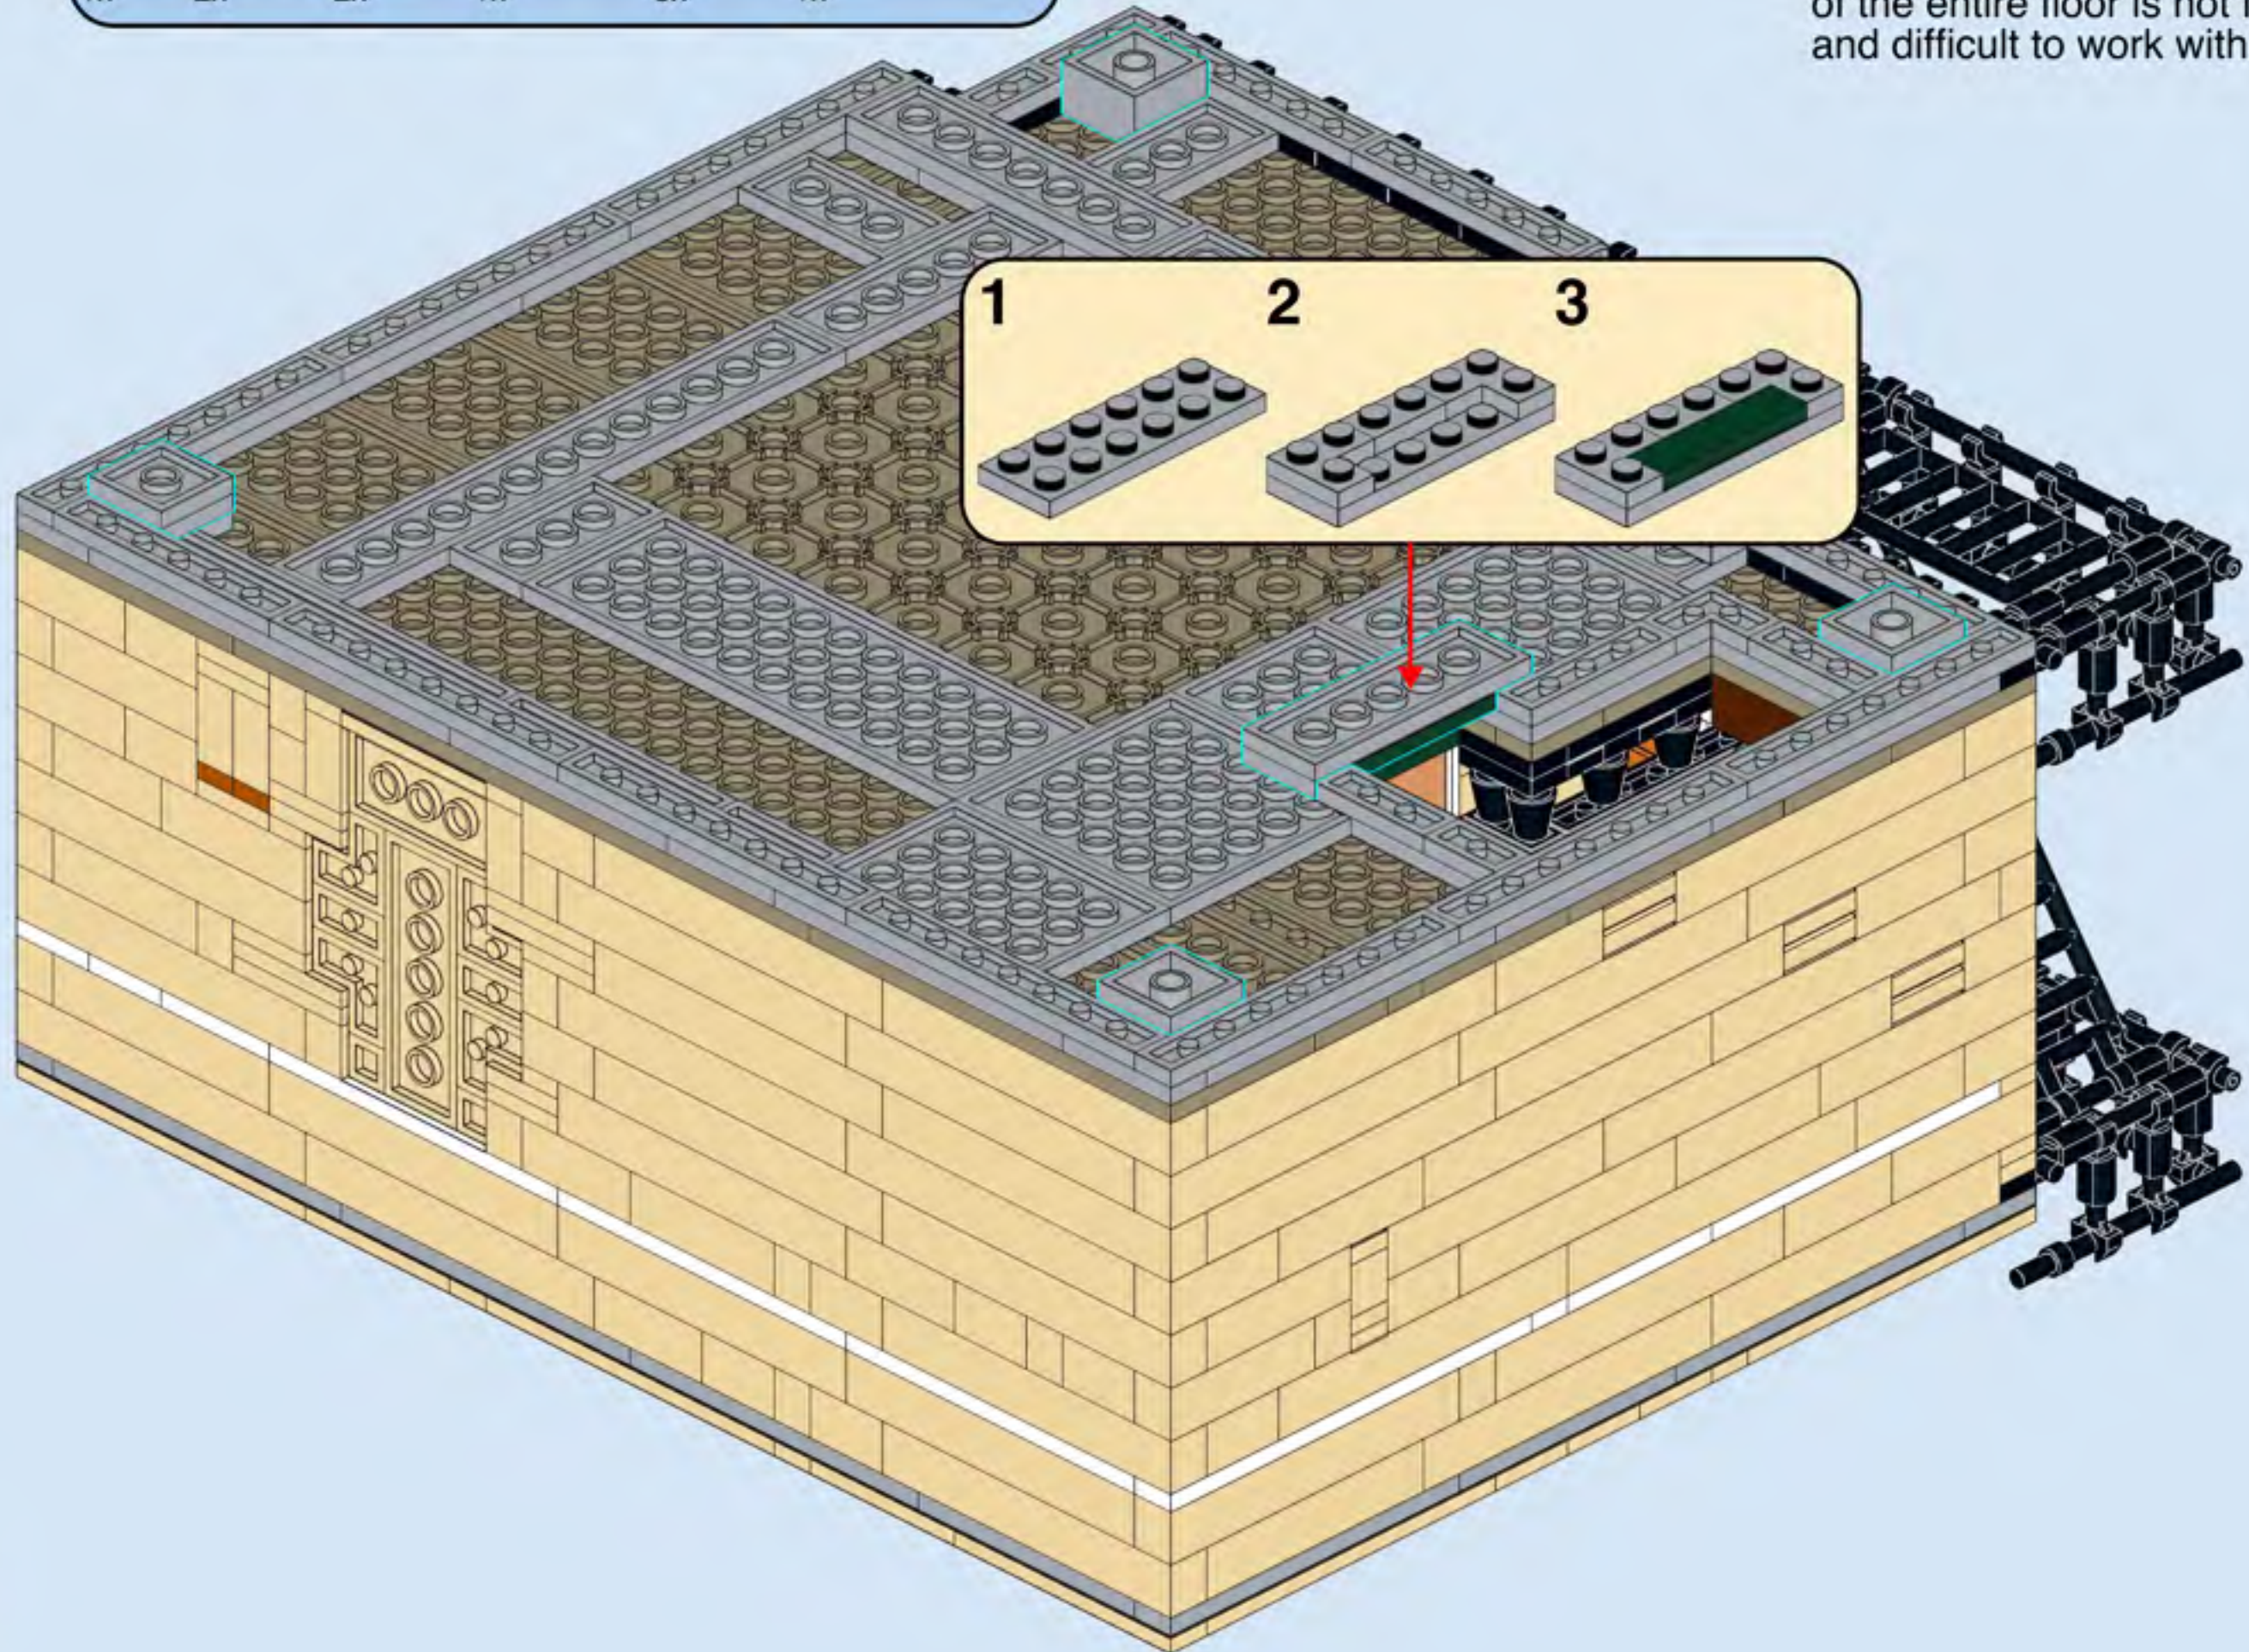

115

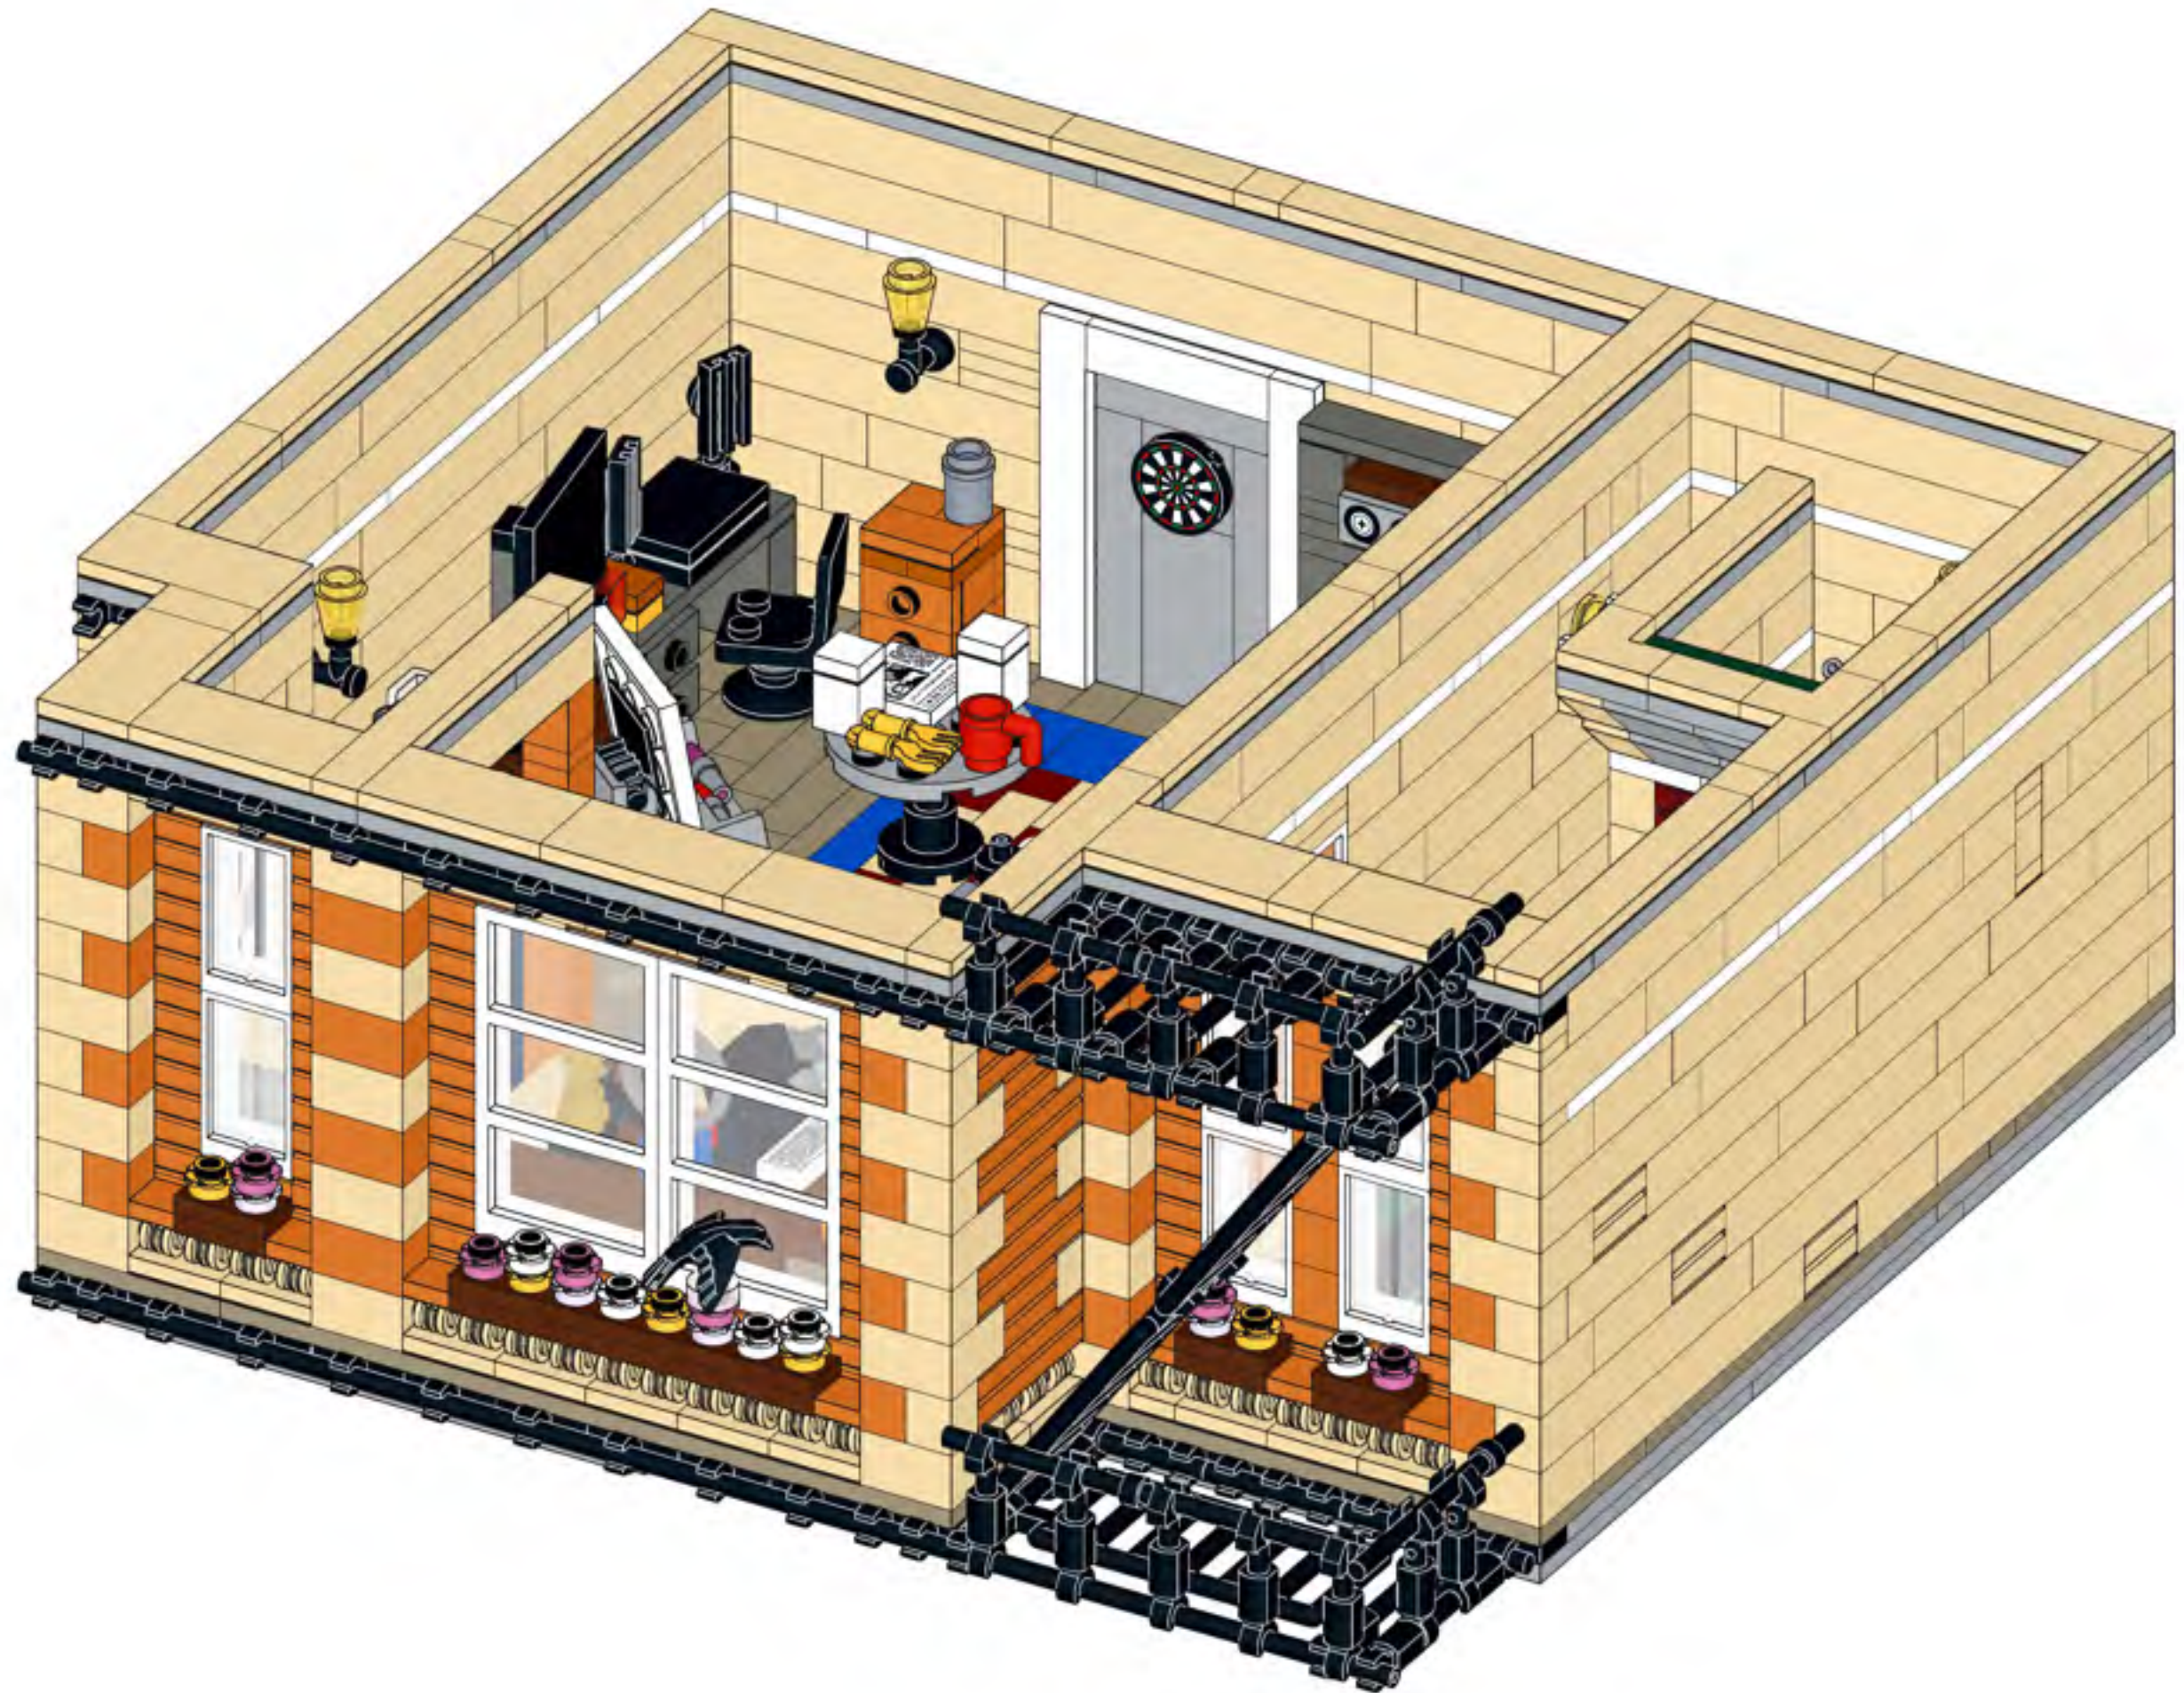

116

May be not flip the entire floor, this is the last step because otherwise the working surface of the entire floor is not flat and difficult to work with.
