A close-up photograph of a LEGO Technic assembly. A grey motor is connected to a black frame. A yellow axle is inserted through a black Technic beam. A red arrow points to the yellow axle. The assembly includes various black and blue Technic components, including pins and bushings.

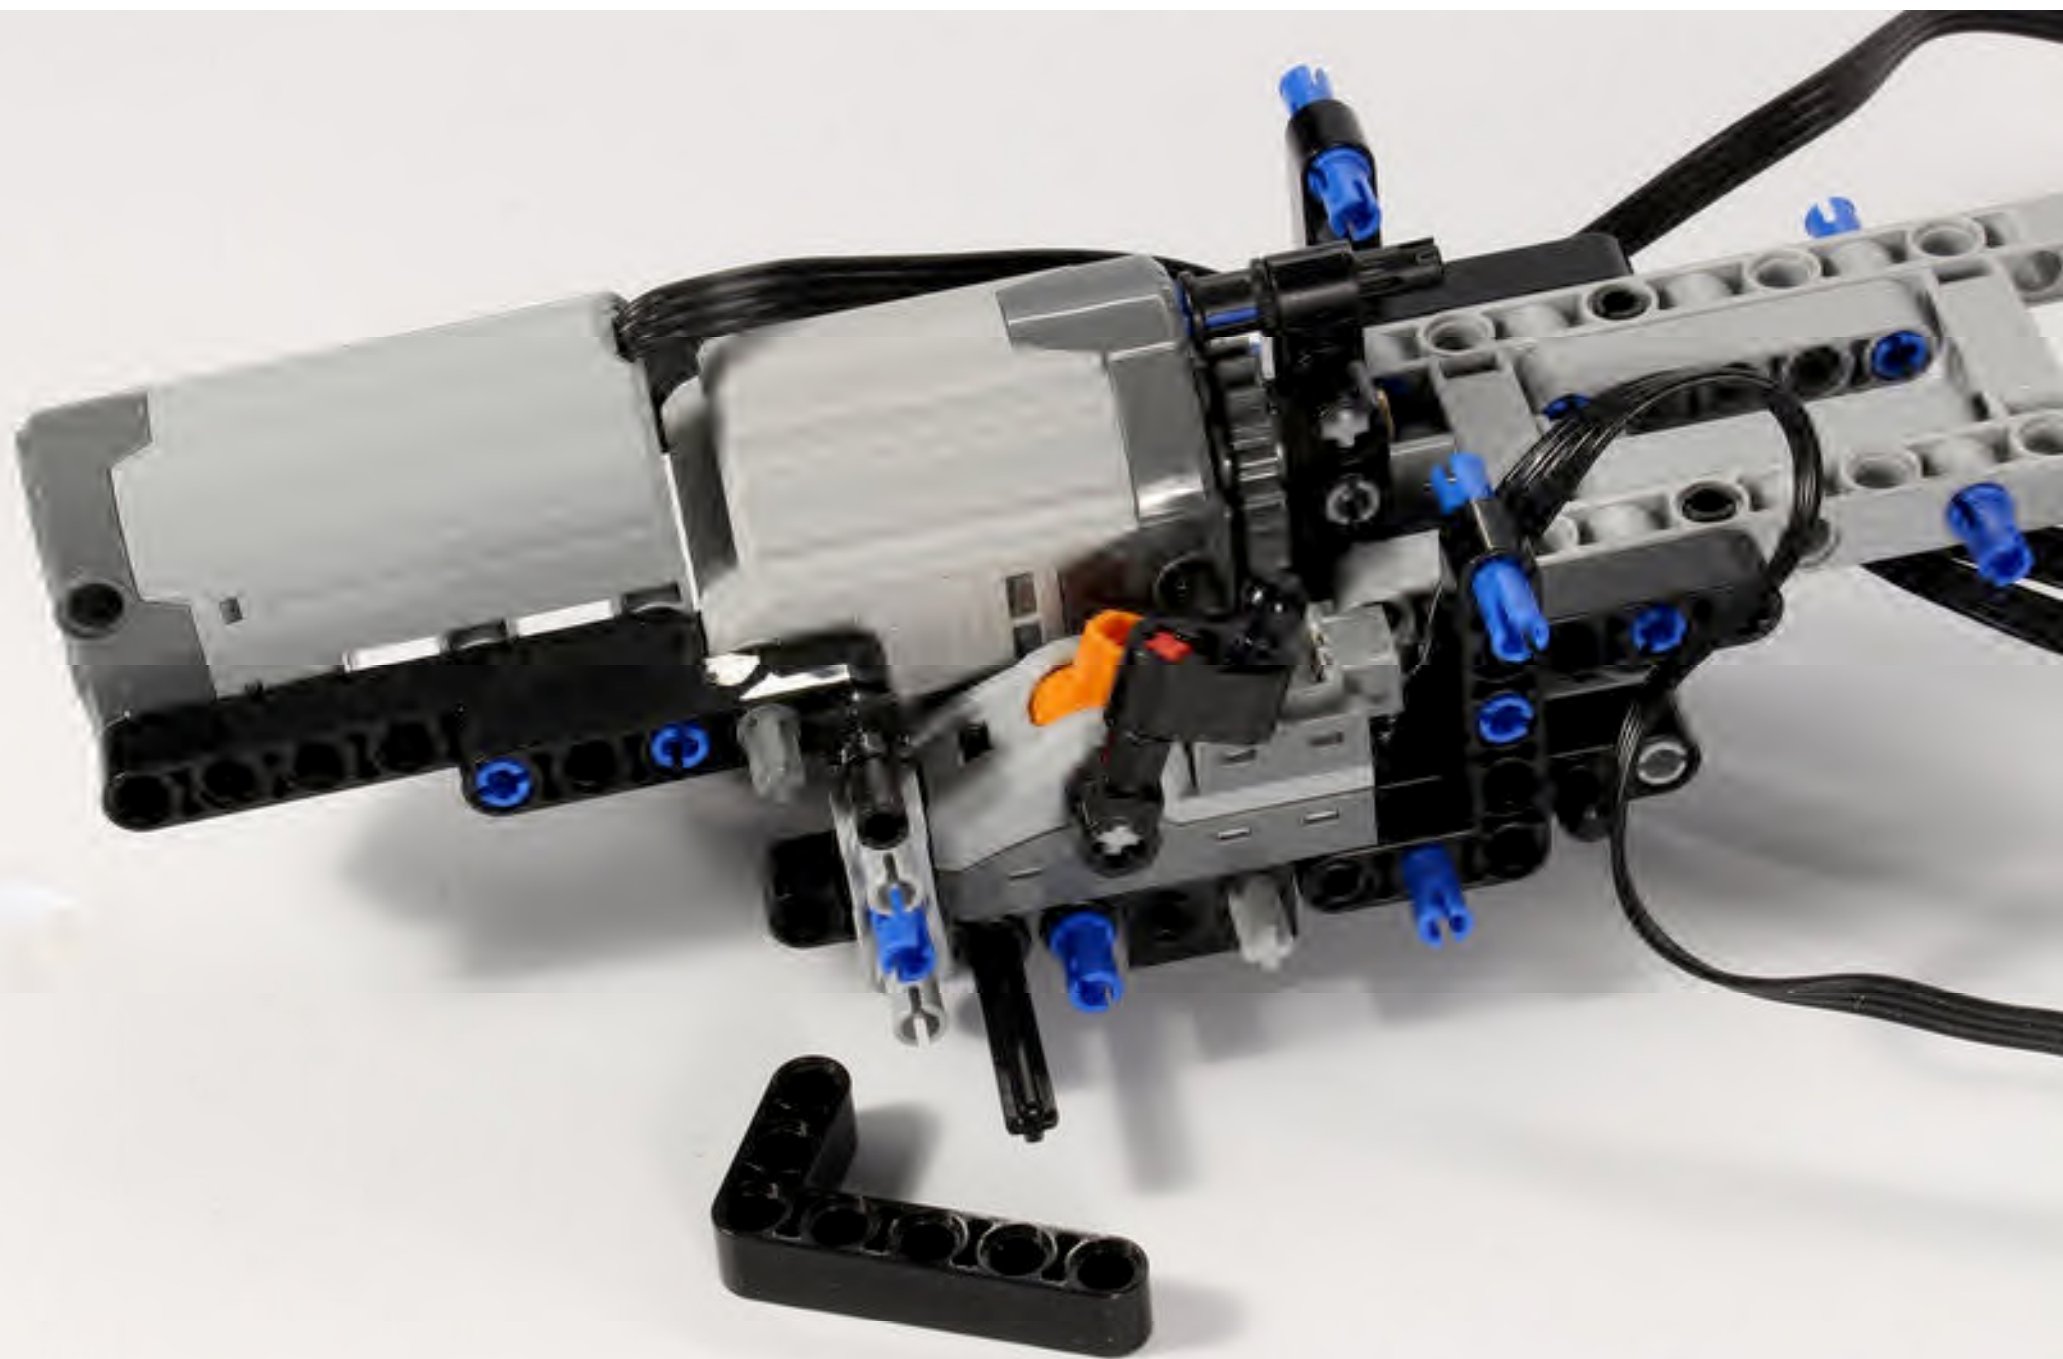

Use 3L pins with bush on both sides
instead 5L axle if you build without
winch.

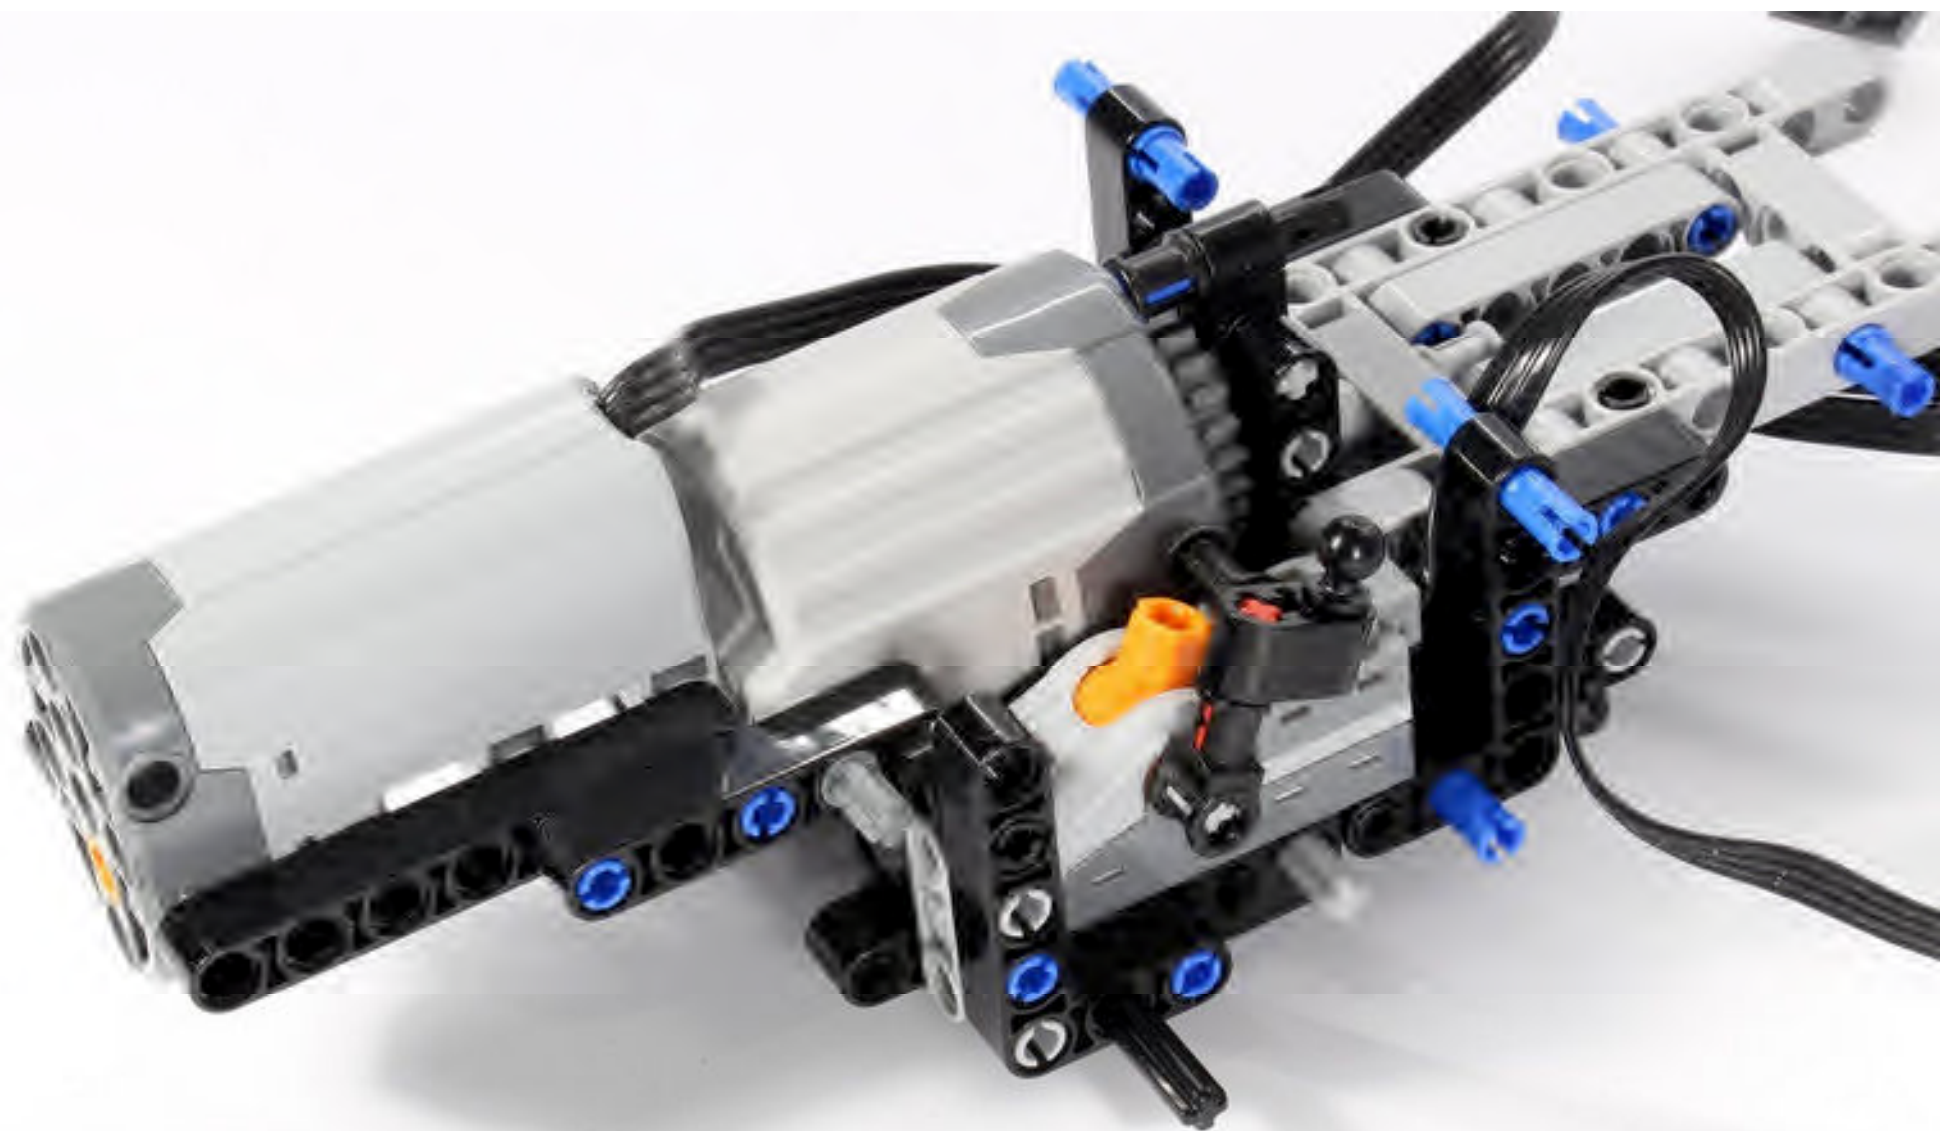

Используя 3Л пины с обеих
сторон вместо 5Л оси если
модель без лебедки
