L motor x 2 (top),
front light (bottom)

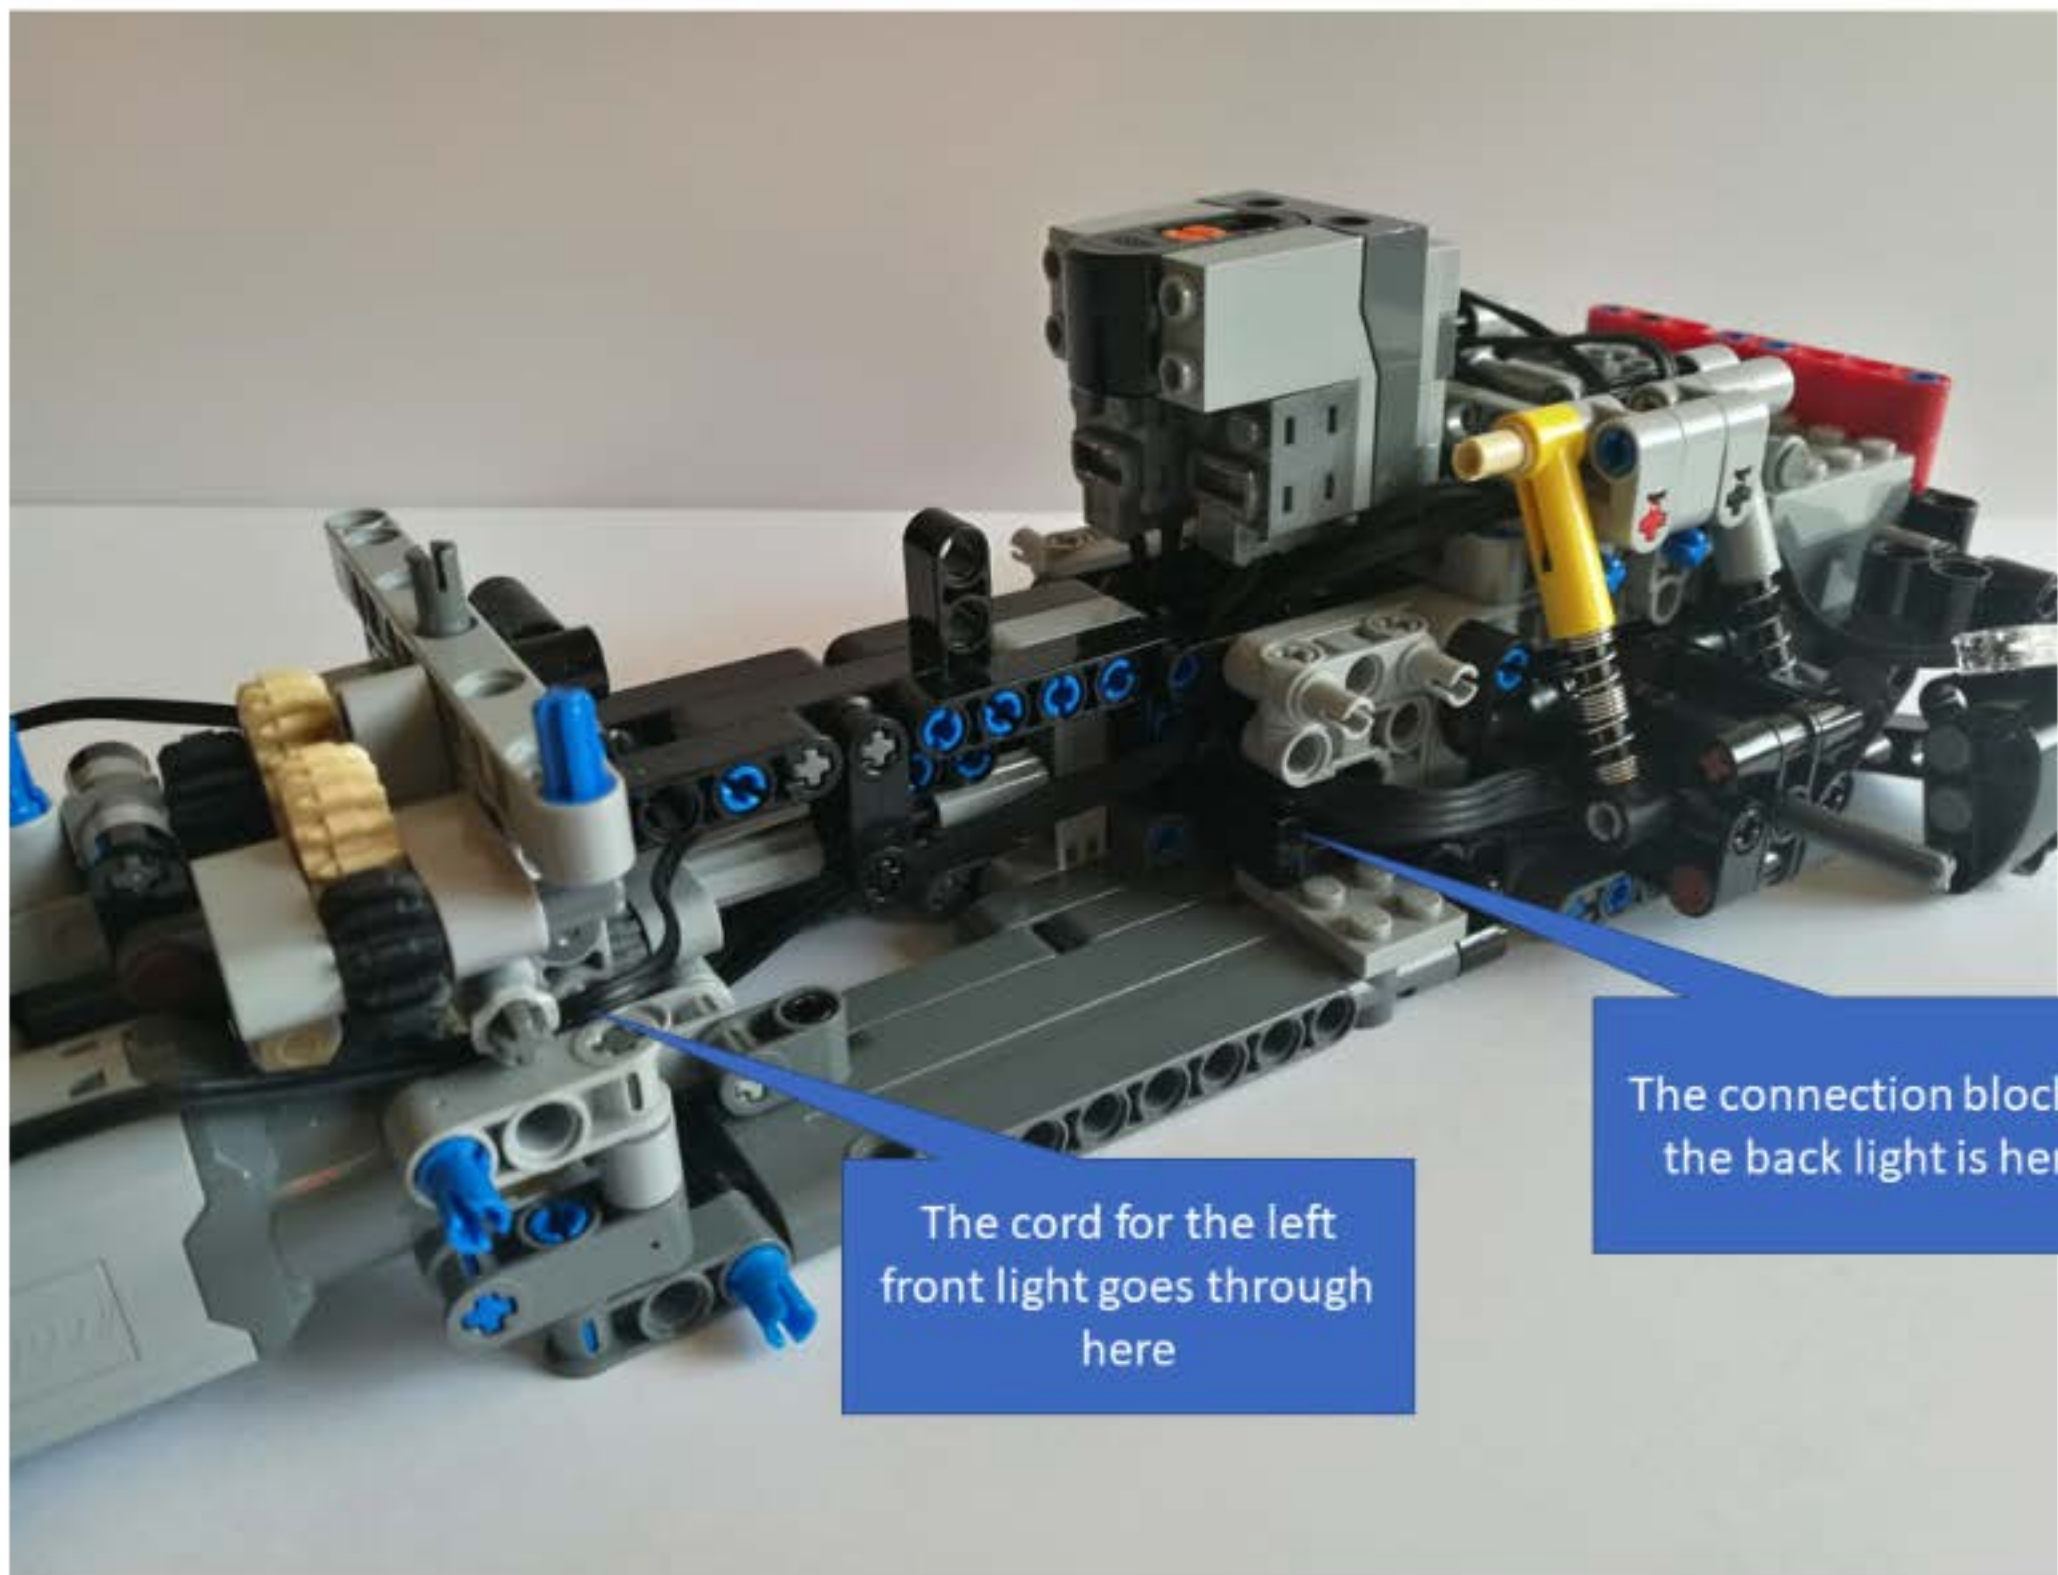

Servo motor (top),
back light (bottom)

The connection
block for the front
light

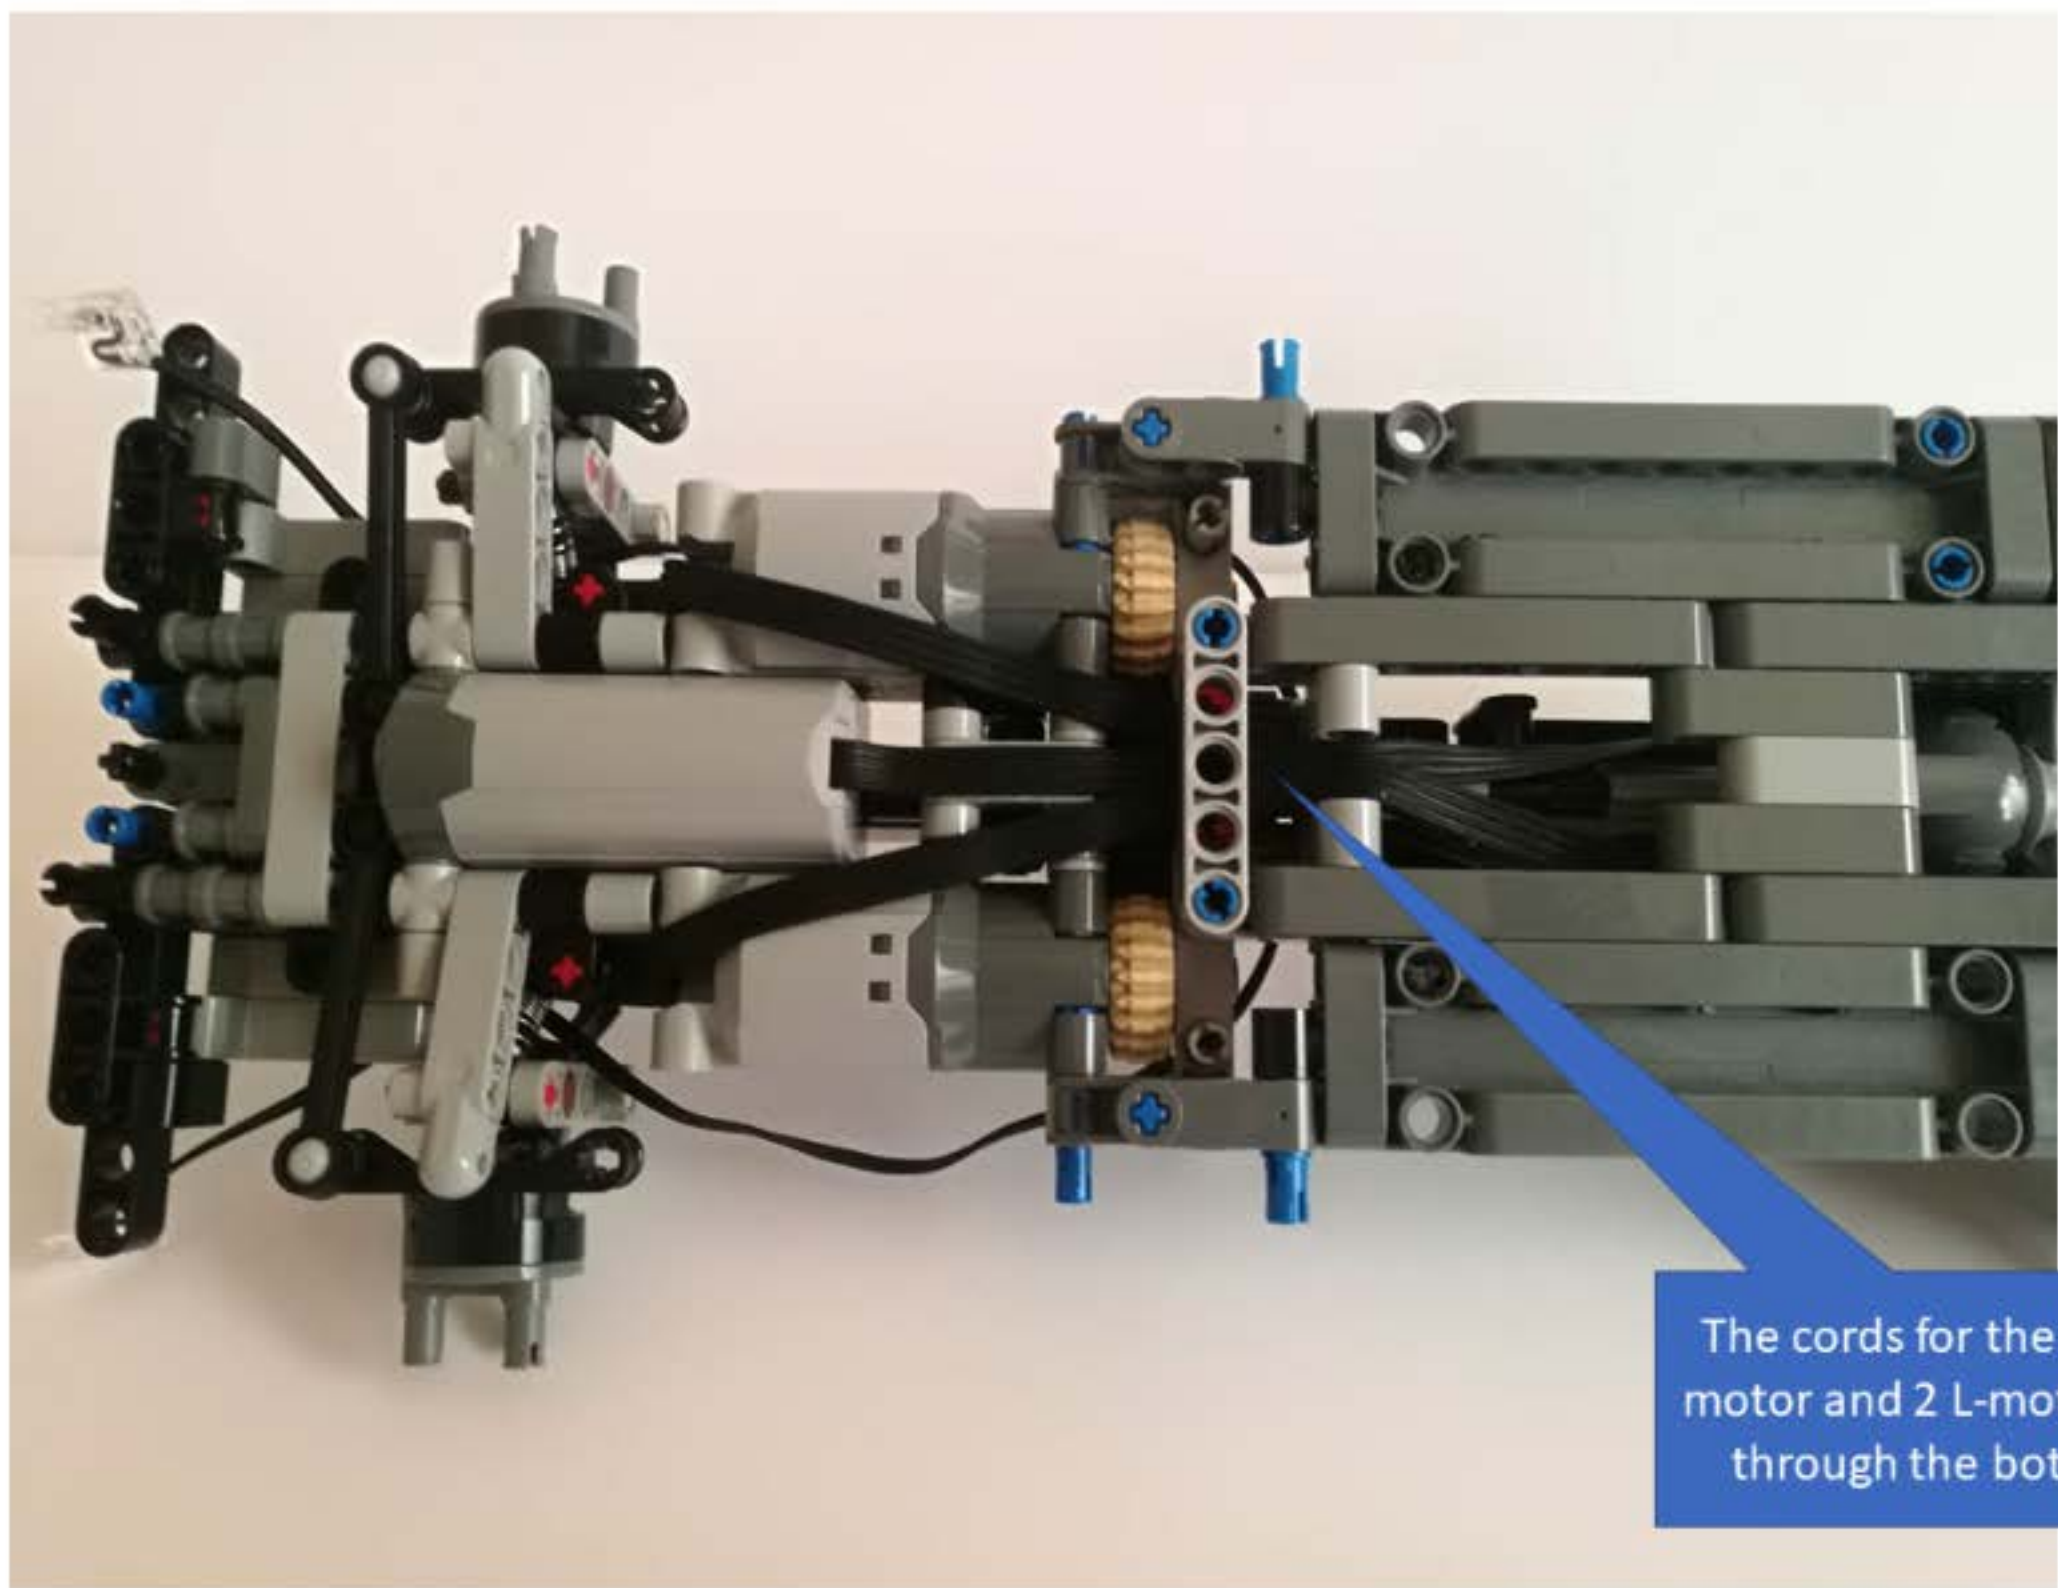

This image shows a detailed LEGO Technic assembly, likely a custom-built robot or vehicle. It features a complex arrangement of grey and black Technic beams and connectors. A series of black wires are routed through the structure, with one wire specifically highlighted by a blue callout pointing to a connection block. Another blue callout points to a hole in the assembly where a cord for a right front light is intended to pass. The assembly is built on a light-colored surface.

The cord for the right front
light goes through here

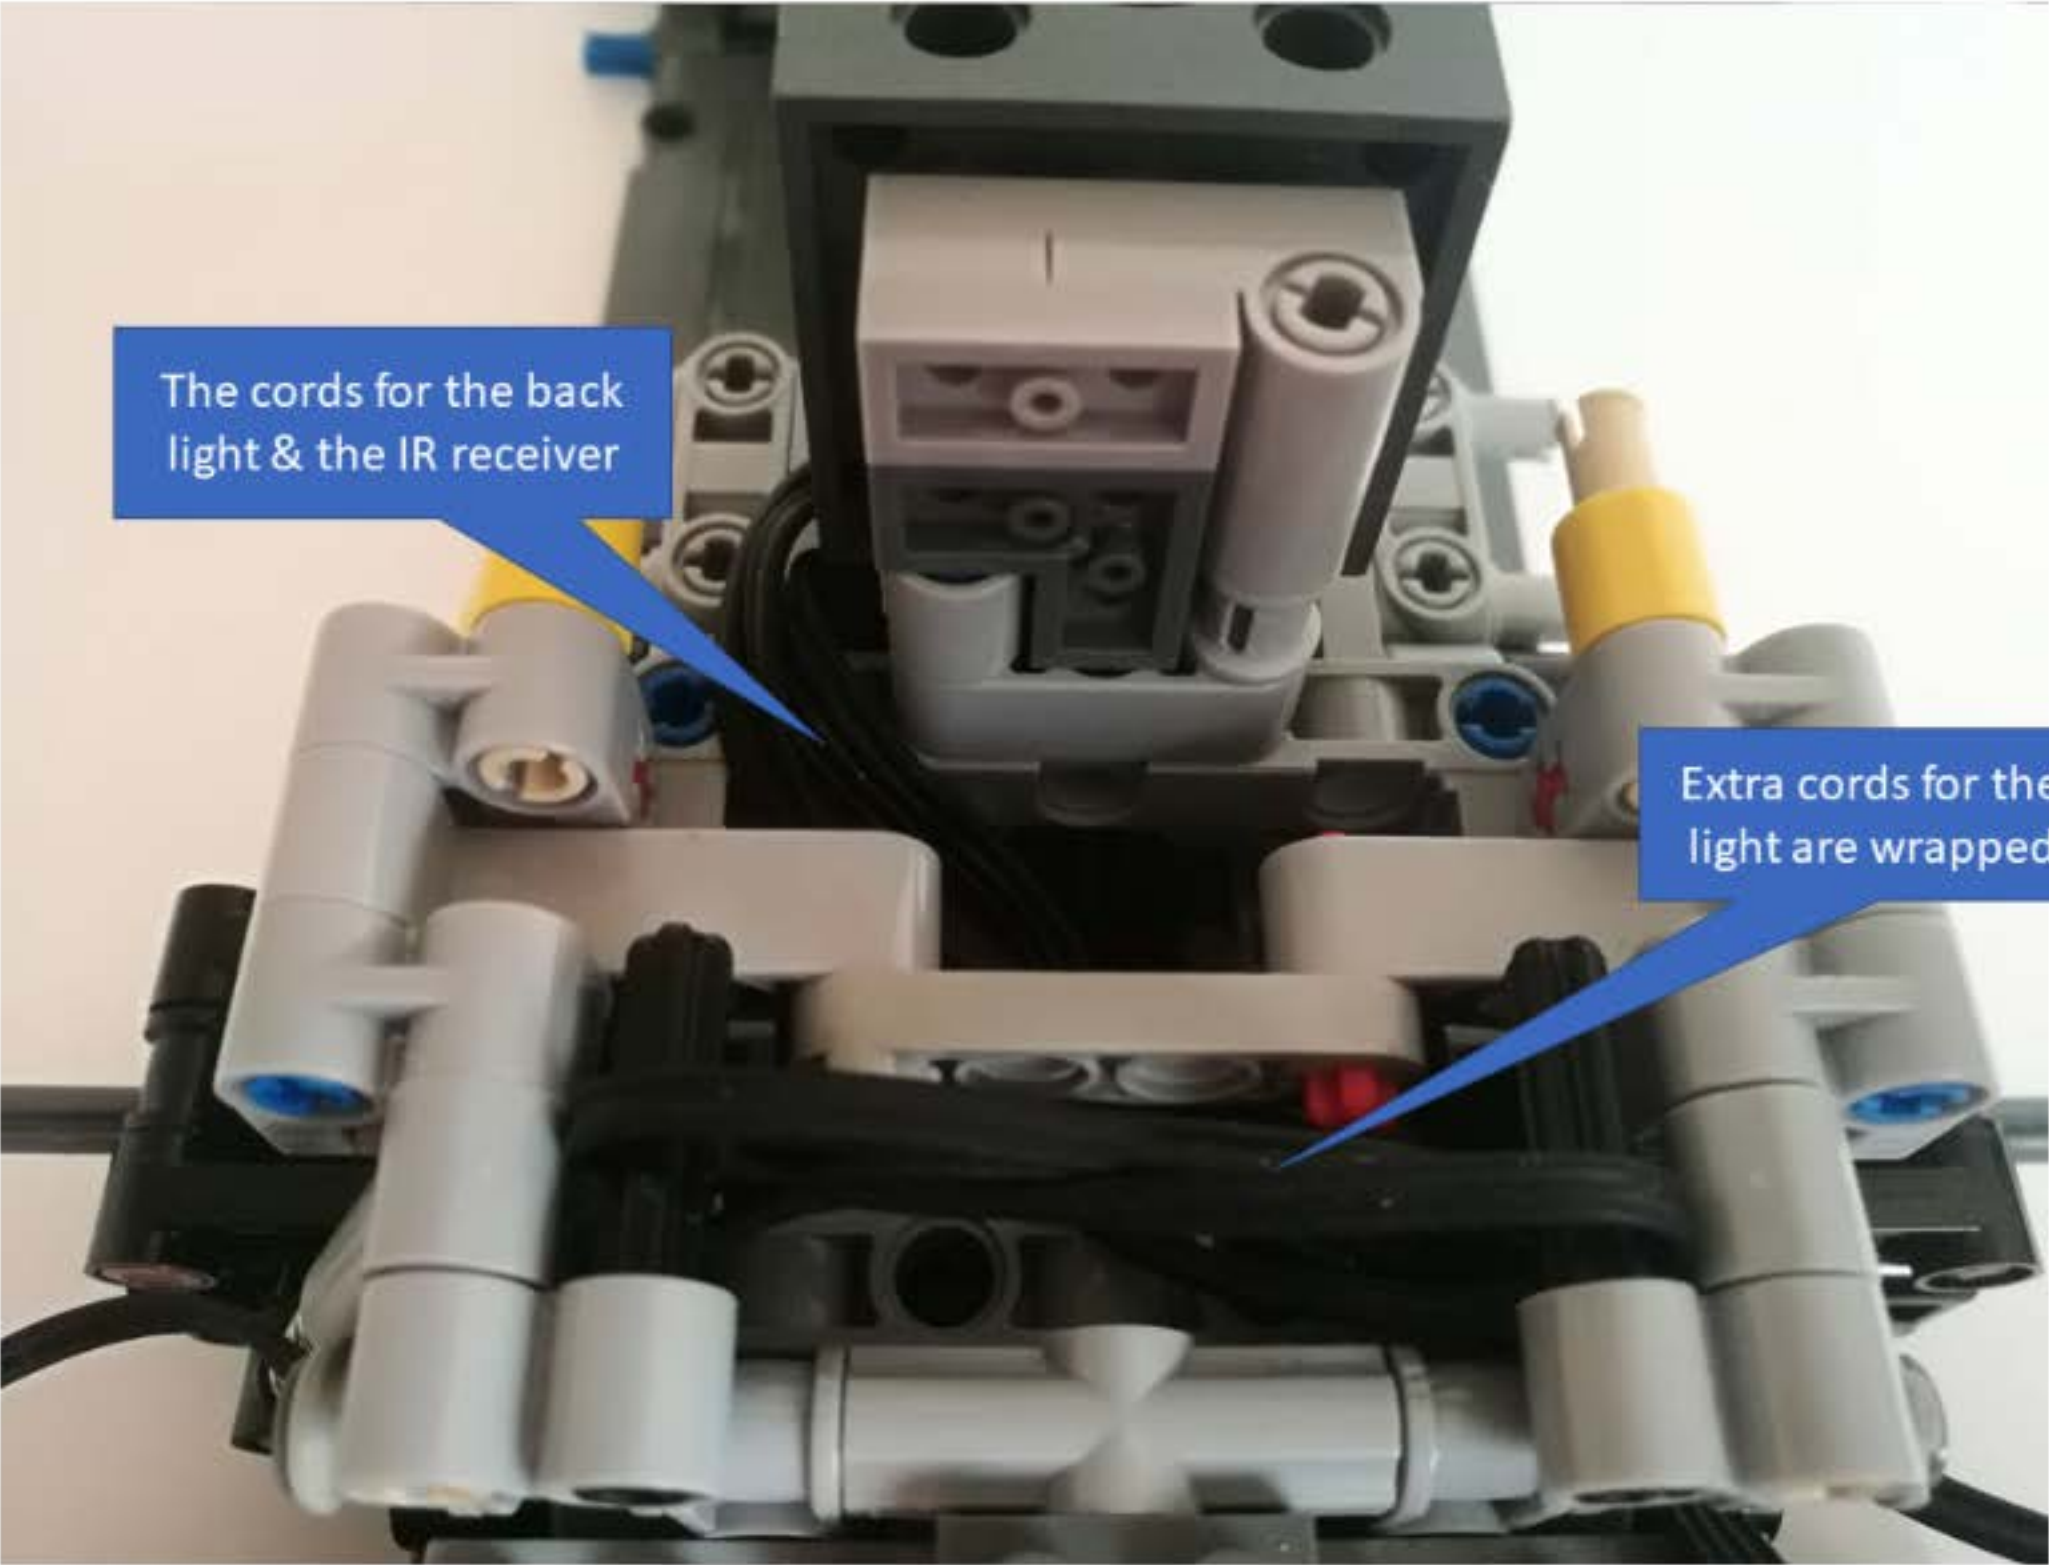

The cord for the left
front light goes through
here

The connection block of
the back light is here

The cords for the servo motor and 2 L-motors go through the bottom

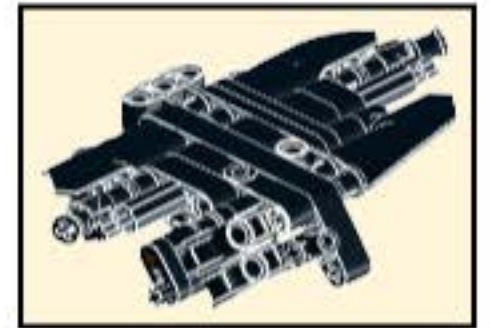

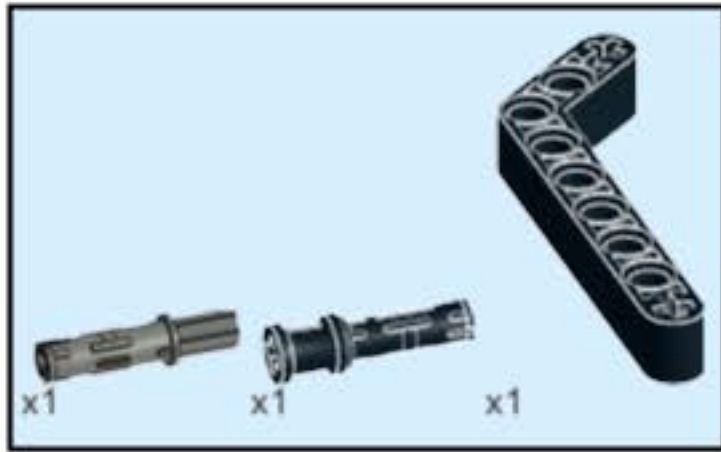

The cords for the back light & the IR receiver

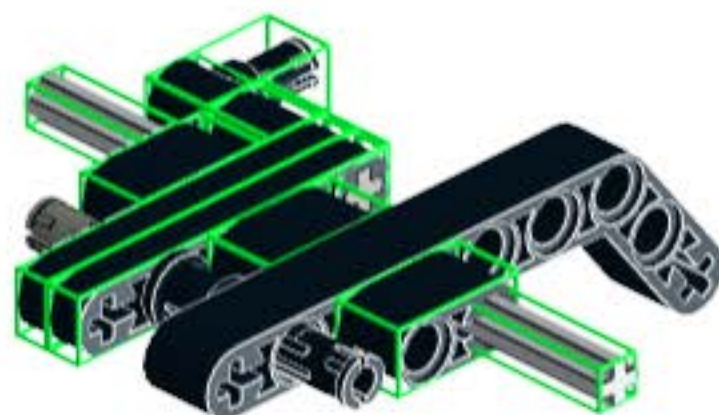

This image shows a close-up of a LEGO Technic assembly. It features a grey Technic beam at the top with a white rectangular component attached. Below this, there are several grey Technic connectors and a bundle of black wires. Two blue callout boxes with white text and blue arrows point to specific parts of the assembly. The first callout points to the black wires, and the second callout points to a grey Technic connector where more black wires are visible. The background is a plain, light-colored surface.

Extra cords for the back light are wrapped here
