This image shows step 417 of a LEGO building process. The scene is set on a tan-colored floor plate. A grey base structure is visible, featuring a long white strip and several grey cylindrical components. The instruction indicates that one 1x brown brick and three 3x brown bricks are to be added. In the image, a 1x brown brick is shown being placed on a grey brick, and three 3x brown bricks are shown being placed on the tan floor plate. The bricks are arranged in a way that suggests they are being used to build a wall or a platform. The overall structure is composed of various grey and white bricks, with the new brown bricks being added to complete the step.

This image shows step 417 of a LEGO building process. The scene is set on a tan-colored floor plate. A grey base structure is visible, featuring a long white strip and several grey cylindrical components. The instruction indicates that one 1x brown brick and three 3x brown bricks are required. These bricks are being placed to form a new section of the building. A red outline highlights the specific brick placement on a grey beam. The overall structure appears to be a complex mechanical or architectural model.

This image shows step 749 of the LEGO Star Wars: The Clone Wars - The Citadel of the Jedi High Council assembly. The instruction number '749' is prominently displayed in the top left corner. A small icon of a grey 1x6 brick with a hole, labeled '1x', is shown in the top left. The main image is a detailed perspective view of the LEGO model. The structure is built primarily from grey and brown bricks, with several white conical pieces (Jedi lightsabers) mounted on brown bases. A red line highlights the specific location where the grey 1x6 brick should be placed. The model features a complex arrangement of walls, pillars, and a central platform area. The background shows a continuation of the structure, including more grey walls and a brown roof section.
