This diagram illustrates step 41 of a LEGO construction. A large green 16x16 plate is being covered with white bricks. A red line outlines the area to be covered, which is a 12x12 grid of 144 studs. The bricks are laid in a staggered pattern: the first row consists of 12 white 1x2 bricks, the second row consists of 12 white 1x3 bricks, and the third row consists of 12 white 1x2 bricks. This pattern repeats for the entire 12x12 area. The bottom-left corner of the green plate is already covered with brown and grey bricks, and several pink flower-like pieces are attached to the grey bricks. The bottom edge of the green plate shows three white circular studs.
